

ANNIVERSARY
*Of Finding Matches
& Saving Lives*

Our Mission

The ABMDR was founded in 1999 as an independent, non-governmental, not-for-profit organization, whose mission is to ensure that every ethnic Armenian struck with a life threatening blood-related illness is able to find hope for long-term survival through the identification of a genetically suitable bone marrow match, as Due to the unique genetic make up of Armenians, it is nearly impossible to find suitable matches among the existing international registries.

The ABMDR is a member of the World Marrow Donor Association (WMDA) and Bone Marrow Donor Worldwide (BMDW) sharing its database information with other registries around the world. In January 2008, ABMDR became a member of National Marrow Donor Program – NMDP.

Our HLA typing laboratory is accredited by the European Federation of Immunogenetics and is the only laboratory of its kind in the Commonwealth of Independent States (former Soviet republics) .

Our Achievements

Since 1999 we have recruited more than 16.000 donors 5576 of which represent the Diaspora (USA, Iran, Lebanon, Syria, Germany, Canada, France, Cyprus, Bulgaria, Switzerland, England etc).

Our Achievements

We have facilitated 12 bone marrow transplantations, found more than 1900 potentially matching donors for 1491 patients.

Our Achievements

After years of negotiations and hard work we unveiled the Stem Cell Harvesting Center in Yerevan, which is equipped with cutting-edge medical machinery that allows our staff to perform not only HLA tissue typing, stem cell harvesting, and cell storage, but autologous transplants as well.

How You Can Help Us

If you are willing to save a life, do not hesitate, join our Pan Armenian family and become the ray of hope for someone!!!

Becoming a donor is very easy and painless. You will just need to fill in a Medical Questionnaire and give 3-4 ml blood for further testing!!!

*Do not be indifferent...we can't afford to lose a single life!!!!
Be an Angel, Save a Life!!!!*
