

Cohesive Cluster Formation

Students must complete 9 Gen Ed elective courses - 3 in *Arts & Humanities* (AH), 3 in *Social Sciences* (SS) and 3 in *Quantitative Sciences* (QS). Each group of three courses forms a *cohesive cluster*. Gen Ed cohesive clusters can be formed as follows – each cluster should include *at least one lower division course* (100-level) and *at least one upper division course* (200-level.)

Courses that cluster in *more than one field can only be counted once* (e.g. CHSS 251 counts either as AH or SS.)

Some major courses may also be offered as Gen Ed courses for non–majors (e.g. MATH 101.) CS or BAB majors cannot count MATH 101 as a Gen Ed course.

The lists below are organized by cluster field (SS AH and QS.) The courses listed are all upper division courses (200-level) – e.g. LAW 201 Armenian Constitution. The bullet lists are disciplines that cluster with the upper division course – e.g. **CHSS 240 Music & Literature** clusters with courses in

- Acting/Theater
